VOL. XVI No. 19

WETASKIWIN, ALBERTA, JULY 27, 1916

V. O. FRENCH, PUBLISHER.

Town Topics

Mrs. George L. Owen went to Banff a few days ago on a vacation.

Remember that the Wetaskiwin tax sale takes place at the city offices on August 3rd.

Mrs. Stanford was at Red Deer this week, visiting at the home of Mrs. E. J. Ramsey.

Ald. Gothard was at the Capital during the past week on business and spending a bit of holiday.

Rev. Wm. Hamilton was at Calgary last week on business connected with the Presbyterian church.

Mrs. Geo. Bayless left on Monday morning for Calgary, where she will spend a couple of weeks with friends.

Mrs. George Starkey and two children left on Wednesday morning for Los Angeles, Cal., on an extended visit to parents and other friends.

Jos. Trea, who is superintending the work on his large farm in the Akre district, spent a couple of days of this week in the city, combining business with pleasure.

Mrs. S. W. Moore of Brandon, and Mrs. T. Ullyott of North Dakota, arrived in the city last week on a visit to Mrs. J. H. Martin. The former lady is a sister and the latter is a sister-in-law of Mrs. Martin.

Jack Neuler has leased the pool room adjoining the post office from J. C. Aldrich, and took possession on Monday. Mr. Aldrich expects to leave shortly for the Yukon on a prospecting and pleasure trip.

On Saturday last Mr. Wm. McCullum dug a potato which puts Mr. Knight away in the shade. This tuber was three inches larger than the one grown by Mr. Knight, as it measured eleven and one-half inches in circumference.

Word reached the city during the week that Sgt. A. R. Godwin, of the 3rd Canadian Mounted Rifles, was killed in action on June 3. He was a late citizen of Wetaskiwin and his friends here regret to hear of his untimely death.

At a special meeting of the public school board on Monday afternoon, the application of Miss Albertine as successor to Mrs. Higginson, who has resigned as teacher of grade VII, was accepted. She is sister of Mrs. Wm. Williams of Ponoka, formerly of the city here.

Miss Peterson, who has not been enjoying good health for some time, left for Idaho Falls, Idaho, on Wednesday morning. Her many friends trust that the change of climate will be beneficial to her health, and that she will shortly return restored to her wonted strength and activity.

It is expected that Dr. Bergstrom, Ottawa, the Swedish Consul for Canada, and Mr. Forslund, of the Natural Resources department, Calgary, will be in the city in the near future, renewing acquaintances, and incidentally procuring first hand information regarding the welfare of the Scandinavian people, who have taken up their residence in this part of the province.

The pretty surroundings of Pigeon Lake are becoming more popular every year as a summer resort. Large numbers of Wetaskiwinites are spending their week-ends there, and among those who have tents there are the families of E. Merner, J. R. Staples, R. M. Shaver, Hugh Ballie, W. Gould, A. E. Miller, A. A. Ellis, H. E. Terry and Rev. E. A. Fook. Several other families contemplate camping out there during the month of August.

Q. Carsell received word from the militia department on Monday that the physicians considered that it would be some time before he would again be fit for active service, and promised that he would be given his honorable discharge on August 2.

Obituary

MRS J. K. BRENNAN

The citizens of Wetaskiwin were shocked on Monday morning last to learn that Minnie Fisher, the beloved wife of Mr. J. K. Brennan, had passed away at the Wetaskiwin hospital. On Friday morning she was hurriedly taken to that institution to undergo a critical operation but despite the best attendance and nursing her life could not be saved. She was born at Poughon, Ont., on July 15, thirty-two years ago and married her sorrowing husband in Winnipeg in April, 1914. Mr. and Mrs. Brennan took up their residence in Calgary, where they resided nearly two years, moving to this city when Mr. Brennan purchased an office in the business of the Wetaskiwin Undertaking Company. She was a member of the Methodist church, and was held in the highest esteem by all who had the honor of her acquaintance. Besides a sorrowing husband, she leaves a mother, father and four sisters to mourn her departure. Service was conducted at the home, 3388 street, on Tuesday evening, conducted by the Rev. M. L. Wright, and the remains left on the midnight train for St. Mary's, Ont., where her parents now reside, for interment. Mrs. Brennan's host of friends extend to him the deepest sympathy in this hour of trial.

JAMES H. E. BRIGGS

The sympathy of the entire community is extended to Mr. and Mrs. James Briggs in the great loss they sustained on Wednesday evening when their infant son was removed from them by the angel of death. A few days ago the little fellow was taken to Edmonton to undergo an operation, and the shock proved too much for his constitution, rugged as it was. He was aged seven months and twenty-four days. The remains will be laid away in the Wetaskiwin cemetery tomorrow (Friday), service being held at the home at 2:30 o'clock.

Distinguished Visitors

See Wetaskiwin

Mr. Reid, a director of the Canadian City and Town Properties, Ltd., of Limerick, Mr. Edward Bailie of the Winnipeg office of the company, were on an inspection tour of the company's realty holdings in the west during the past week, and spent several hours in Wetaskiwin with their local agent, Mr. J. H. Robinson. A couple of years ago, Mr. Robinson succeeded in interesting this company in Wetaskiwin property and through him they purchased the vacant lot on the south side of Pearce street, adjoining the P. Burns block. The company immediately set its architect to Wetaskiwin with a view to preparing plans for a building they contemplated erecting. The plans were prepared for the construction of a thoroughly modern business block at a meeting of the directors held at Liverpool. It was decided to proceed with the construction at once. A few weeks later, however, the present war broke out, and the company found themselves compelled to postpone their program of construction in the west temporarily.

Ottawa, July 25.—Arrangements have been made by the department of finance for the appearance early next week in all Canadian newspapers of the first advertisement of the Canadian war loan to be floated in September. The advertisements will not give any information as to the terms of the loan, which will be announced later. It will be the subject of a general appeal to the Canadian people to hold themselves in readiness to subscribe to the loan.

Letter From the Front

Pte. J. W. Hermonist, formerly of Wetaskiwin, writes an interesting letter, dated June 29, regarding his experiences.

"I am still on the job," he says, "and feeling O.K. I have been in the trenches twice for about five days each. The first time was scorching, as Fritz seemed very much perturbed about something, and shelled us continually.

"To be taken out of peaceful England, have one's battalion divided into about twelve parts, and then to find one's self in the front line trenches all within three days, is to say the least, rather staggering, and yet that is what happened to the 1st. Some are with the 1st, 10th, 14th, 15th, and goodness knows how many other battalions. With about a hundred others I am in the 7th Battalion, from British Columbia. The remnants of the 4th are very near by, but as yet I have not had a chance to talk to any of them.

"You would never recognize us on our way out of the trenches—dark, mud, hard a week old, dirty, tired, nervous and sleepy. But one of our favorite songs is—

"Pack your troubles in your old kit bag,
And smile, smile, smile!"

Binder Twine Forecast

Conditions in the rope market are serious, owing to the Mexican situation, and manufacturers advanced since 1 cent a bushel per pound on June 24. New supplies of sisal here are practically unobtainable. This is bound to affect sisal in several ways and sisal has become very necessary owing to its adaptability and use for binder twine. Binder twine has come to be indispensable for use in harvesting machines, and without it it will be difficult, not to say impossible, to harvest the world's crop of cereals. Of course Manila hemp could be used if there was enough of it, but there is hardly sufficient Manila hemp grown to make all of the binder twine required. If no more were taken for rope. The annual sisal crop is about 1,100,000 bales, weighing approximately 450 pounds each.

If the supply of sisal cut off or deliveries long delayed, the price of Manila burlap would go high, and no matter what the price there would not be enough available. Cotton, jute, sisal and other fibres are useful in many ways for twine and cordage, but do not work satisfactorily in harvesting machines as now made, while wire has been tried and discarded.

When pieces of wire net get into the stomachs of animals it usually kills them. Therefore, whatever serves to diminish or stop entirely the receipt of Mexican sisal will seriously affect rope, as well as other kinds of cordage and twine made from Manila or sisal hemp.—Commercial.

Soldiers will Help Harvest Crops

Farmers will rest a little easier in regard to their harvest help because of the announcement that soldiers will be given leave of absence to help in the grain fields this year, in the same way as they were released last season. From all present appearances there is going to be a crop in Alberta this year almost if not altogether equal to that harvested last season; and in view of the fact that many men have gone out of the province since last fall, all who still remain here will certainly be required to share in the activities of gathering in the grain.

The same regulations will certainly be in force this year. Free transportation will be granted to any place within a distance of 300 miles from the place where the soldier is stationed. Many of the men are expected to be paid regular monetary wages upon their return to camp, and the production of a signed statement from a farmer that they have worked in the harvest field.

Of the ten thousand soldiers stationed at Sarcee camp it is expected the greater part will take to the fields when the leave of absence is granted. A large portion went out at seedling time, finding the change in the wheat fields not only beneficial to themselves but also to appear to them in the sense that they were doing the province's great good.—Calgary News-Telegram.

Watch the bon-fire and be sure it is out before you leave it.

Town Topics

C. H. Russell was at Edmonton during the week, combining business and pleasure.

On Tuesday afternoon Mayor Angus disposed of another Overland car, the purchaser being John McKinnon.

Mr. Jos. Cobblehead of Calgary was in the city this week visiting at the home of his daughter, Mrs. Dr. Stevenson.

Miss Ruth Gourley, of the staff of the Royal Bank, Edmonton, spent the week-end in the city visiting her mother and other friends.

Services were conducted at Emanuel church on Sunday last by Rev. Canon Hovort of Edmonton. At the morning service, Holy Communion was held.

Mr. and Mrs. W. H. Odell, who have been spending a couple of weeks with relatives at Lacombe, and with friends at Gull Lake, returned home on Saturday.

Claire Crosby, who has been spending his vacation in the city with his parents, and other friends, returned to his duties at Red Deer on Monday morning.

O. O. Feland, who has been spending some time in Uncle Sam's domain, arrived in the city on Wednesday to look after business interests and to renew acquaintances.

Tickets are being sold in the city this week for the disposal of a \$425 Remington shot-gun, the proceeds of which will be donated to the band of the 22nd Battalion, with which to procure instruments.

While the grocery clerks of the Star Store were handling a bunch of bananas a few days ago they discovered a tarantula, which they forthwith captured and are now preserving in alcohol.

The regular monthly meeting of the Scandinavian Hospital Society will be held at the home of Mrs. J. P. Johnson on Tuesday, August 1, at three o'clock. Everybody is cordially invited to attend.

The prize lists for the Wetaskiwin Agricultural Society's fair are now ready for distribution, and may be had by applying to the secretary, R. N. Shaw, manager of the Wetaskiwin branch of the Canadian Bank of Commerce.

Beiler & Co. offer \$10,000 cash and a clear title revenue producing property in Edmonton for a well improved 450 or 900 acres also have 2800 acres clear title Southwestern Texas land to exchange for Canadian land, wild land preferred.

Now is the time to prepare for the Wetaskiwin Exhibition by getting the best stock, etc., you have in shape. The fair promises to be by far the best yet held by the society, and it is certainly well worth the effort of the growers of the province to get their share by bringing in your exhibits.

A man with a scythe could make a big improvement on the looks of the streets just now. While the growth of grass speaks for the growth of the province, it is a shame for the growing qualities of our soil, the visitor takes a different view of the matter, and puts it down to ourselves.

A dance will be given in V. E. Thompson's new bar, 22nd and 10th streets of the city on Friday evening July 28. Gentlemen will be charged 50c and ladies are requested to supply refreshments. Proceeds will be given to the Red Cross Fund. Everybody cordially invited.

Inspector Nelson, who was the presiding examiner for the reading of Grade VIII examination papers, returned home on Saturday from Edmonton, having completed his duties. It is expected that many of the successful students will be announced in a day or two.

On Sunday evening last the school garden was broken into by some culprit or culprits, by smashing the lock on the gate. Many of the pretty flowers, which were blooming, were stolen, and other damage was done to the plot. The parties are suspected, and if they are not caught, they will have to answer to the authorities for their actions.

Our sincere sympathies go out in all earnestness to the person and his near kin of our brave young lad who are reported killed in action, died of wounds, prisoner of war, missing, wounded, or whatever the casualty may be. Wetaskiwin a district have been severely smitten, and our one consolation is that the heroes who have gone down have fallen in doing their duty as brave soldiers in the common cause of right, honest and truth in the battle against the treacherous despoiler and would-be ruler of the world.

Church Chimes

UNION SERVICES

Sunday, July 30.—
11 a.m., Methodist church.—Rev. Dr. Huston of Red Deer, secretary of the Lord's Day Alliance, to preach 2:30 p.m.—Sunday School.
7:30 p.m., Presbyterian church.—"Prayer for Good Works," Rev. M. L. Wright, preacher.

Excursion to the Schools of Agriculture

The Provincial Department of Agriculture has just completed arrangements with the various railway companies for three days' excursion to the schools of agriculture, when a most interesting and instructive program will be given by the staffs representing the schools and the department of agriculture.

The dates for the visit to Olds are set for Thursday, Friday and Saturday, August 3rd, 4th and 5th, and the fare rates have been arranged for on the convention plan, viz: Passengers will purchase one way tickets from any station and by air train to Olds, taking a Standard certificate receipt from the ticket agent. An official at the school at Olds will sign this receipt, and said receipt can then be exchanged at the station for a regular ticket good for the return journey.

The program will include the following: Judging, feeding, and care of livestock. Diseases of farm animals and their treatment. Study of crops and cultural methods. Identification of weeds and weed seeds. Barn plans suitable for Alberta. The farm gasoline engine. Farm poultry problems. Farm dairying. Household Science including cooking, canning, sewing, laundering, and home management. There will undoubtedly be a large attendance as a splendid opportunity will be given for seeing the complete operations of the schools and inspecting the credit and experimental plots. Visitors can remain during the whole three days or a portion thereof.

For further particulars visit Alex Galbraith, superintendent of Fairs and Institutes, Edmonton.

Program of the Wetaskiwin Sports

Everything is beginning to point to a successful fair and race meet here on August 22nd and 23rd, under the direction of the Wetaskiwin Agricultural Society. The prize list is now being circulated and is being largely circulated as soon as it is off the press. The list of classes have been thoroughly revised, and many items have been added to the list of last year.

The following is the program of sports so far arranged:
August 22.—
Indian Race, half mile, best two in three heats, 1st \$5.00; 2nd, \$3.00.
Farmer's Trot, half mile, best two in three heats, \$20.00, \$10.00.
Squaw Race, half mile dash, \$4.00 \$2.00.
Baseball game.

August 23.—
Indian Race, half mile, best two in three heats, \$7.00, \$4.00.
Running horse race, half mile, best two in three heats, \$20.00, \$10.00.
Pony race, half mile, best two in three heats, \$12.00, \$6.00.
Squaw Race, half mile dash, \$6.00 \$3.00.
Baseball Games.

Rules—All prizes must measure 14 1/2 inches to the nearest inch and be of good material. The first prize of making progress. Award.
The Bawf Hotel has closed its doors, but rooms and meals are offered the public at the Hotel.

Mr. and Mrs. H. W. Wright spent the week-end at Gull Lake with friends.

Town Topics

The friends of J. McCready, sr., west of the city, regret to learn that he is suffering with a severe stroke of paralysis.

When you advertise in The Times you know you are placing your ad-vertisement where it will do most good—that is, bring most business.

The Greenwood Ledger says: "Prayer without action is a little thing. We found this out by praying for our delinquent subscribers to jar loose when we needed money."

Her many friends are glad to learn that Miss Gladys Matatall has sufficiently recovered to be able to be removed from the hospital to her home, and that she is convalescing nicely.

Quite a number of Wetaskiwinites went to Sarcee camp on the excursion Wednesday. They report that the boys from this district are in good spirits and are anxious to get to the front.

Mr. Young of the Wetaskiwin branch of the E.C.D. was at Edmonton last week on business connected with the estate of his brother, who was killed in action in Flanders a few weeks ago.

The farewell dance given by the 22nd Battalion in Angus Hall on Tuesday evening was well patronized and a most enjoyable time was spent. The music was furnished by Bouka's orchestra.

Master Clayton Harris received word on Thursday morning that his efforts in the recent competition for boys selling the Chicago Blade and Ledger, had been successful, and he was a winner of a bicycle.

Relatives of soldiers who are getting, or would like to get, the home paper, will confer a favor on the boys and the editor alike by giving information to the editor of the address of which they are notified.

Mrs. Dr. Conn, who was visiting relatives and friends in the city returned to her home in Edmonton on Saturday. She was accompanied by her sister, Miss Redden, who spent the week-end at the Capital.

The osteopaths of Calgary are opening a free clinic for children with the view of overcoming spinal curvature and other back and chest irregularities. There will not only be free examinations but free treatment for deserving cases.

"We wish to announce that we are taking orders now for early fall delivery for the following grades of coal—Bankhead, Brigettes, Yoke Lump and the famous Gold Lump. We are the sole agents for these coals in this locality. Revolveville smelter Co.

The crops in this district are growing very rapidly and a rich harvest is again in store for the farmers, if the grain can be garnered in without damage. Although a snow is now required in the summer and loss of it. No damage from hail has been reported.

On Monday morning about five o'clock the brigade had a run to fire which started in a residence owned by J. P. Gross, on Dufferin street east, but which had been unoccupied for some time. The brigade made a quick run, and succeeded in quenching the flames before much damage was done. The loss is covered by insurance. The cause of the conflagration is a mystery.

A town is like a large family. We are all interested in each other's welfare, or should be. A cut-throat, every man for himself policy means ruin for any community. The first lesson that any family must learn is unity and mutual assistance. The same applies to the business of a town and the more abundant the unity the town's prosperity. Stand by each other and patronize the home folk.

The summer labor problem is again before the farmers, as Alberta has a very large crop in prospect for this season. Last year the harvest was a most difficult situation, and was saved in the west by the government allowing the soldiers in the camps to go out and work on the farms. This year the supply of men is less than formerly, because there is more work in the lumber camps, and on railway lines, and as a result wages are higher.

FOR SALE—HOUSE AND 2 LOTS
Apply to James Smith, Dickson Avenue, Wetaskiwin. 19-2t.

SPECIAL BULLETIN FROM THE COMMISSION OF CONSERVATION

A report just issued by the commission of conservation, "Conservation of Fish, Birds and Game," directs attention to the great value of these resources to Canada. The volume is a report of the proceedings of a conference of the committee on Fisheries, Game and Poultry, and contains a fund of information regarding Canada's present condition of fish, birds and mammals.

Canada is taking a prominent part in the international movement for the protection of wild life. A migratory bird treaty between Canada and the United States is under consideration. Through the influence of the commission of conservation and other interests, land reservations are being created, where the birds in a final safe nesting and breeding places. The fur-bearing animals of northern and western Canada are being rapidly exterminated. This is clearly shown by the present report. To secure their more adequate protection, the commission is advocating the amendment of the Northwest Game Act, to place responsibility for its administration upon the Dominion Parks Branch, which already protects the animals to the Dominion National parks.

The future of the fisheries of Canada is dealt with in an ample manner by the highest authorities in this country. They are of great present value is recognized, but there is also a potential value in our oceans and inland waters, which, upon development, would mean the creation of new industries. To meet this condition, the commission is suggesting vocational training and simple demonstration stations for the fishermen, that they may take advantage of the most practical and modern methods of their calling.

The report is replete with illustrations applicable to the subject matter.

Is it the fast horse or the slow horse in a team that pulls the greater part of the load? The department of agricultural engineering of the Iowa College of Agriculture says it is the slow horse. It says that supposing one horse of a team is eight inches ahead of the other, the eight inches ahead of the other, the slow horse in a ratio of 100 to 100, pulls is the center hole in the equalizer is four inches out of line with the hole in the end of the equalizer.

CAMROSE

(From The Canadian)

Misses Bessie and Georgia Campbell, to Wetaskiwin on Tuesday morning after a few days' visit with Mrs. Gordon Gilbert.

Henry Kiplington, son of a well-known farmer of this district, had the misfortune to fall in front of a brush cutter which he was driving on Thursday last, with the result that his right foot was completely severed.

A large land deal of one of the choicest tracts of land in the district, was put through on Wednesday of this week when Messrs. Farley & Twomey sold section 14-29, six miles north of Camrose, and including the townsite of Dillman, to Camille David, Ltd.

Two stalwarts of the Duhamel district, Herbert Ross, son of Jas. F. Ross, and Alfred Kowit, who have been working in the Duhamel district for the past four years, have called with the 20th Sportsman's Battalion.

One of the Imperial Oil Company's tanks, containing 9000 cu. m. of gasoline, may be seen half buried in the ground at the end of the spur near the sheds. On Saturday afternoon last, in shutting on the spur line, the engineer misjudged the distance with the result that the tank was backed completely off the track. It will take some little effort to get it back again.

BRIGHTVIEW

A meeting to discuss the advisability of draining Bear Lake was held in the Brightview school on Wednesday afternoon. It was attended by a large number of farmers interested in the scheme. H. J. Montgomery, M.P.P., explained in detail the provisions of the drainage act passed at the last session of the legislature. It was decided to have the lake lowered if at all possible, and a petition was largely signed asking that the Minister of Public Works secure from an engineer a complete survey and report as to the cost and feasibility of the work and the amount each piece of land benefited would be assessed for. On receipt of this report it will be decided whether the work will be proceeded with. Should an engineer's expenses incurred will be paid by those signing the petition. The meeting was presided over by Mr. John Olson, with Mr. J. R. Carruthers as secretary.

WATER GLEN

One of the most enjoyable social events ever held in this community took place at the home of Mr. A. Lindholm on the 13th inst., the occasion being the sixtieth anniversary of Mr. Lindholm's birthday. The gathering came as a surprise, but the visitors speedily took possession of the home and everybody went in for a good time. In addition to local friends, old acquaintances from Malmo were present. Shortly after the assembly gathered Mr. Lindholm was presented with several tokens of esteem and good will, among the number being a leather hand bag and suit case. The presentation was made by Mr. O. L. Save in a neat address, and the recipient warmly thanked. Refreshments of all kinds were served in abundance. Mr. Lindholm has been a resident of this district for twenty-three years and he expects to leave shortly on an extended trip. He has many friends in the States. All join in hoping that Mr. Lindholm will be spared to his friends for many years to come, and that he will continue to enjoy good health and prosperity.

Crops in this district have never looked better.

Messrs. T. T. Jerne and E. Kjel and families, who have been visiting friends in this vicinity, returned home last week. They attended the dedicatory services of the Norwegian Lutheran church here on July 20 and 21.

TIMOTHY SEED TO BECOME AN IMPORTANT INDUSTRY

IN ALBERTA

J. J. Murray & Co., Edmonton, Alberta, wish to announce that they will buy all this timothy seed that can be grown in Alberta is properly harvested and threshed. In a letter just issued they say: "Do not thresh with a grain threshing machine. If you have a crop of timothy, we will thresh it with our Timothy Flail, and we will buy all the seed. The hay must be cut and tied in sheaves, keeping the binder as level as possible so as to have a good square shed, tying it as close to the bottom as possible. By doing this, we can take the seed off without cutting the bands. We ask every farmer who

has timothy to write us so that we can arrange to have machines in every part of the province. We would like to have a large quantity of seed threshed in time for fall seeding; in the east, therefore we want to thresh it as early as possible in August and can assure farmers that we can get an export demand for large, clean, unthreshed timothy seed, such as is grown in Alberta. You can easily understand that the grade of timothy will be much purer as the machine only operates on the head and does not take out the weed seeds that are down in the middle of the sheaves as very few weeds grow as tall as the timothy."

PLEASANT PRAIRIE

Some farmers on the Prairie are getting hay, but the daily shower retards the process.

Mr. Herbert Benz and family of Vancouver are visiting their cousins the Emmers.

The Clover Kleckers Baseball team are practicing weekly for a game with Wetaskiwin in two weeks.

Mr. Otto Koopke of Winnipeg is visiting his aunt, Mrs. H. Emmers.

Mr. Carl Felch was taken to the Wetaskiwin Hospital again on Sunday to undergo a second operation on his arm for blood poisoning.

William McCredy and bride, of Lacombe, are visiting at John McCredy's.

Mr. Ward Bailey, Misses Lillian and Gladys Bailey, Mrs. Matz, Mrs. Murphy, J. Madden and Gus Dax were at J. McCredy's on Sunday.

By wireless—Yes, Dad has put his door hinges on the Kittle garden gate.

CANADIAN RED CROSS

ACTIVE IN FRANCE

The activity of the Canadian Red Cross in France is fully in keeping with the size and importance of this country. The Society is to the fullest extent carrying out the purposes of its organization and is rendering timely relief services not only to the Canadian and British wounded, but also to the French.

A good idea of the magnitude of this assistance can be gained from a list of the two months supplies sent out from the warehouse in Boulogne, which is in charge of the assistant commandeer, Capt. Braylock.

To the field and base hospitals there were sent 647 cases of bandages of thirteen different varieties, 827 cases of dressings and 84 of hospital pads, 6298 pillow cases, 2964 sheets, 1423 bed, dressing and pneumonia jackets, 4987 pyjamas, 41,158 shirts and 6904 pairs of socks. It must be remembered that this is only a partial statement of two months shipments from one out of many Canadian Red Cross supply depots.

Ample provision is made for the comfort and recreation of the convalescent soldier. All manner of games are sent to the hospitals. To one hospital the Boulogne depot sent a complete cinema outfit, to another a piano, and to others gramophones and a large assortment of records. It shipped also in the period mentioned, 12,800 cigarettes and 12,800 pipes. The Red Cross sees to it that the wounded men do not lack for anything in any way necessary to their comfort, such as shaving outfits and toilet articles of every description.

In the upkeep of numerous hospitals and the repair of large numbers of ambulances, the Red Cross stores issue a great variety of articles, such as carpenter's tools and automobile accessories. Indeed the scope of the Red Cross enterprise is amazing, and the ability of the Canadian Society to attend to all the intricate details of such a complex organization should be a matter of pride to every Canadian.

As intimated in the preliminary announcement, the conference for the Red leadership will be held at the University of Alberta during the date of August 7th to 11th inclusive, the registration to date securing sufficient to warrant going with the proposed program.

A Sluggish Liver CAUSES LOTS OF TROUBLE.

Unless the liver is working properly you may look forward to a great many troubles arising, such as indigestion, severe headaches, jaundice, sick stomach, etc.

Mrs. J. Shalloworth, 227 Albemarle St., Halifax, N.S., writes: "I take pleasure in writing you concerning the great value I have received by using your Milburn's Lax-Liver Pills for a sluggish liver. When my liver got bad I would have severe headaches, but after using a couple of vials of your pills I have not been bothered with the headaches any more."

Milburn's Lax-Liver Pills are, without a doubt, the best liver regulator on the market to-day. Twenty-five years of reputation should surely prove this.

Milburn's Lax-Liver Pills are 25 cents per vial, 5 vials for \$1.00, for sale at all drug stores, or mailed direct on receipt of price by The J. Milburn Co., Limited, Toronto, Ont.

Here is a letter from the head office of The Evelyn Sales Co. It is up to the people of Wetaskiwin district whether or not this stock will be sold en bloc.

L. L. Morgan,
Sales Manager,
Beehive Store,
Wetaskiwin, Alta.,

Dear Sir:—
Your sales sheets arrived. Must congratulate you on the splendid sales you are having. Keep the good work up. You must be giving exceptionally low prices to clear so much of the stock out to the people. Regarding the sale of the stock en bloc I have several clients here who are ready to buy it. However as long as the public are buying the way they have been this last two weeks I will not send them. Let the people there have the benefit. As soon as sales drop off let me know and I will send buyer for balance of stock.

Yours very truly,
THE EVELYN SALES CO.
H. M. EVELYN, Manager

NO BLAME ON SIR SAM HUGHES BY COMMISSION

Ottawa, July 21.—The report of Sir William Meredith and Mr. Justice Duff on the furs contracts, which has been awaited with considerable interest since the beginning of the inquiry, was made public this morning by Sir Robert Borden. The report covers thirty printed pages.

Contrary to expectations, there is no summary of the conclusions at the end. The report takes the form

of a recital of the evidence adduced at the inquiry with an occasional expression of opinion by the commission. It is extremely difficult matter without a careful study of the documents to arrive at a clear idea of what the actual findings of the commissioners are.

The impression created by a hurried reading of the document is that the commissioners are but mildly critical of the actions of the shell companies in letting the contracts for time and grace furs in New York. There is no condemnation of the minister of militia, who is absolved from any intention to do wrong, and the action of the shell companies in letting contracts for time furs is generally upheld.

The commissioners are more inclined to be critical when dealing with the grace furs contracts and express the opinion that these could have been made in Canada. They are more inclined, however to place the blame on Col. Carnegie than on the committee which they say was bound to accept his advice. They are inclined to excuse Col. Carnegie, however, on the score that he was a very busy man. Col. John Wesley Allison comes in for more criticism than anyone else connected with the furs contracts. This is shown by a comment which the commissioners make in dealing with Allison's introduction of the Yukon Craven-Baskin group into the contract for grace furs let to the American Ammunition company.

STUMPS ARE PARASITES

Every stump on your land is a parasite. It is cheating you out of your due from the land it occupies. Every stump costs you money. You have to pay a regular rental to the stump land and the rental is going to the transients labor necessary to get rid of them has scared you from tackling the job. Nevertheless, you will continue to

pay interest on those stumps just as long as you allow them to keep you out from the profits of the crops you could grow on the land they now make useless to you for other than pasture purposes. The farmer is facing new problems. He is facing the problem of getting more money for his labor. In order to make more money the farmer must practice the principles of efficiency. In brief these are: cut out waste, utilize every inch of space, and adapt to your work those methods that experience has proven the most profitable.

A DISCRIMINATION IN ADVERTISING

A local business man handed us the following yarn the other day: The lion was talking; the leopard why he roared in the jungle when going about hunting. "Doing business openly with plenty of advertising," the lion said, "is what has made my reputation. I got my characterization as King of Beasts by blowing my horn. Always let the other fellow know you are around and he will respect and fear you."

A rabbit, hiding and slithering in a clump of pampas grass, overheard this conversation; and all the next day he pondered over it. He decided it was better to have all the other animals fear him than to live himself in constant terror. So the rabbit filled his lungs with a great breath and tried to roar like a lion. A wolf, learning of the rabbit's whereabouts by his roar, hopped on the rabbit and ate him up.

Moral—If you haven't got the goods there is no use advertising. The Times agrees tentatively with this moral. Still the rabbit was in the wrong business; and even at that one can never tell how far a strong blind will carry.

All Medicine Hat hotelkeepers closed their hotels definitely on July 22, as they claimed they could not make their establishments pay under present circumstances. They recently asked the city council for cheap rates on all utilities supplied by the city, but the request was refused.

FREE IMPLEMENTS, FREE WHEAT AND ALSO RURAL CREDITS

Ottawa, July 21.—The National Liberal Advisory Council which has been in session for the last part of three days concluded its sittings today with the announcement that a Dominion Liberal convention will likely be convened before the next general election. It will probably be held shortly after the close of the next session of parliament at the Dominion capital. It was intimated that the only thing that will prevent a convention being held is the holding of an election at a date earlier than is generally expected. It was also stated that the National Advisory Council which was organized last December, is doing the spade work for the convention, but that it will be retained as a permanent advisory body.

Sub-committees were named to deal with a variety of subjects, including: economy and location; rural credits and banking; returned soldiers; bankruptcy law; proportional representation; free wheat and free implements. On the latter subject the report says:

"On the subject of taxation, finance and finance policy, the council were agreed that the stand taken by parliament during the last two sessions was along the right line. The council expressed itself as wholly opposed to the doctrine of having protection, especially under the guise of 'war taxation,' imposed to meet wasteful expenditures for domestic purposes. Free wheat, free agricultural implements, free flour and customs taxation so adjusted as to bear most equitably upon the general consumer for which the party has put itself on record during the past three sessions will be adhered to."

Ame Pigeon, of Edmonton, was caught transporting liquor to and from a shoe box, and trafficking in the same. He was fined \$30 and costs. W. J. Blair, of Provost, has offered to present the colors to the 11st Battalion, in camp at Sarcee, and his offer has been accepted by the officer commanding.

AMERICANISM

If I elect to see a piece of Madagascar, Greenland, Greece or any other clime, I'd like to feel that Uncle Sam will guard me well without a waste of time. I'd like to feel as safe in Rome, as I am feeling here at home, with cops on every hand. I'd like to see mailmen, wine, when I, with hauteur of a prince, proclaim my native land. But when I traveled in Calhary, the people stopped me on my way, and pulled my nose and ears; and then I cried, "Unhand me, states; I'm from the great United States," they greeted me with jeers. They rolled me off my mountain pen, my dollar watch

and every yen, they stole my dash-and-pun and I stood by and saw them swipe my safety razor and my pipe and new tin drinking cup. I notified my government and asked that battalions be sent as fast as they could track, and shoot. That country full of holes, and road thieves with ten foot poles, and get my chattels back. But Uncle Sam just wrote some notes, instead of going after greas, and breadfing some one's dome; and so I say Americans will find it is the best of plans to stick around at home—Walt Mason.

The C.N.R. has signed contracts for the building of large machine shops and stores building at Edmonton, to cost \$6,000.

Don't fill an oil or gasoline stove after dark, nor do so while the stove is burning as the flame might set fire to the vapor in the air, and cause an explosion.

Nearly Lost Little Girl from DYSENTERY

She Was Cured By Using

DR. FOWLER'S

Extract of Wild Strawberry.

Dysentery manifests itself with varying degrees of intensity, but in well marked cases it is commonly preceded by loss of appetite, and some amount of diarrhoea, which gradually increases in severity, and is accompanied with griping pains in the abdomen. The discharges from the bowels succeed each other with great frequency, and the matter passed from the bowels, which at first resembles those of ordinary diarrhoea, soon change their character, becoming scanty, mucous or slimy, and subsequently mixed with, or consisting wholly of, blood.

Never neglect what at first appears to be a slight attack of diarrhoea or dysentery may set in. Cure the first symptoms by the use of Dr. Fowler's Extract of Wild Strawberry.

Mrs. John Peterson, Radville, Sask., writes: "I cannot speak too highly for Dr. Fowler's Extract of Wild Strawberry. I nearly lost my little girl, aged three years. I took her to the doctor, and he told me her temperature was 104, and forbid me taking her out to our home, six miles from town, but I was forced to go on account of leaving my small baby home. We managed to get her home, but the fever did not go any lower, and we thought we would lose her sure, as she was so bad with dysentery she even passed blood. A neighbor came in and brought Dr. Fowler's Extract of Wild Strawberry, and told me to give her a few doses. This we did, and the next day she took a change for the better, but it was quite a time before it was on her feet again. do believe if it had not been for Dr. Fowler's, my little one would have died."

The genuine "Dr. Fowler's" is manufactured only by the T. Allburn Co., Limited, Toronto, Ont. Price, 35 cents.

THE GOVERNMENT'S NEW SCHEME FOR WOUNDED SOLDIERS IN TRAINING

We Canadians are absolutely unanimous about one thing in this war—that justice and reparation must be secured for those who have suffered. The men who have volunteered to fight for us, while we have stayed safely at home—these men, coming back, shattered and torn, or with health in any way impaired by their service, must have reparation, and from us.

It is the first work of justice, and there is no Canadian worthy of the name who will not agree to it with all his heart.

Our head as well as our heart, however, must be employed to devise a form of reparation that will readily repair—that will as far as possible, make up to these men what they have lost.

From the beginning of the war it has been recognized that a man offering his body to defend our cause should have compensation for any injury his body might suffer in the carrying out of that task. A scale of pensions was adopted both for disabled soldiers and their dependants, in the proportion of the degree of disability. A revised scale, involving a large increase of expenditure, was recently agreed to by a Parliamentary committee and is already in force.

A pension alone, however, will not restore the injured man to his place as an active and useful member of the community, and that has got to be done, by some means or other, both in the community's interest and in his own.

A very few of the injured will be

Heart Palpitated

Would Have to Sit Up in Bed.
FELT AS IF SMOTHERING.

Mrs. Francis Madore, Alma, P.E.I., writes: "My heart was in such a bad condition I could not stand any excitement, and at times when I was taking my heart would palpitate so that I would feel like falling. At night, when I would go to bed and lie down for a while, I would have to sit up for ten or fifteen minutes, as I would feel as though I was smothering. I read in the daily paper of a lady who had been in the same condition as I was, and was cured by using Milburn's Heart and Nerve Pills, so I bought a box, and they did me so much good, my husband got another, and before I had used half of the second box I was completely cured. I feel as though I can never say enough in favor of your Heart and Nerve Pills."

Milburn's Heart and Nerve Pills are composed of the very best heart and nerve tonics and stimulants known to medical science, and are for sale at all drug stores, or will be mailed direct by The P. J. Milburn Co., Limited, Toronto, Ont.

Price, 50 cents per box, or 3 boxes for \$1.25.

found so totally helpless that this restoration is impossible. On the other hand, a large majority, in spite of their injuries, will still be fit for their former work. But between the two classes will be many men with injuries either handicapping them seriously in their old occupations or carrying them out altogether.

Such men must not be condemned to perpetual uselessness. They will not thank us for that. They are not the kind of backboneless kind that they would hardly have thrown themselves into the war. They did not enlist to be boddies or spoon-feeders, and they will not be boddies and spoon-feeders now. Having recovered their strength, they will naturally expect to use it. The question simply is—How?

To begin with, their disability can be lessened by what is called "functional reeducation." By special exercises, with or without the aid of the ingenious apparatus invented for the purpose, the muscles mutilated by wounds add operations and weakened by compulsory disease, can recover some of their strength and become once more accustomed to exertion. Then, by "vocational re-education," the men can be enabled to return to their original trade or, when that is impossible or undesirable, they can be helped to take themselves for another occupation. There is no intention, by the way, to provide re-education for men who do not want it.

The parliamentary committee decided that the cost not only of pensions and artificial limbs but also of this vocational training should be paid by the Dominion government. The Canadian hospital authorities also have a committee, and that has got to be done, by some means or other, both in the community's interest and in his own.

The report begins by explaining that the commission aims at benefiting members of the Canadian Expeditionary Force but also disabled reservists of the British and Allied armies who were bona fide residents of Canada when the war broke out. The commission has received the assurance, it tells us, of the active co-operation of the provinces and various municipalities in carrying out such a policy. Technical schools, agricultural colleges and other public institutions have agreed to receive disabled men for training, and many others have also been received from private commercial establishments to provide training and subsequent employment when the men have become proficient.

The period of training for a given vocation will vary according to the previous education and industrial history of each individual. The cost of tuition will vary in consequence and also owing to the fact that in many cases the tuition will be free or the minimum. (The training will be free to the men in all cases. If there is any charge, it will be paid by the Dominion government.) The commission has already undertaken the provision of training in general subjects and elementary vocational work for all men under treatment in the various hospitals and convalescent homes operated by the commission, irrespective of whether such men will later be subjects for vocational training leading to new occupations.

CHOP BULLETIN No. 1.

(Issued by Dept. of Agriculture)
Central District.—The season opened under favorable conditions, but cool and wet weather has retarded operations about two weeks later than last year. Less fall plowing and high wages together with the late spring will account for the restricted area seeded. The great interest in live stock mixed farming and dairying which has characterized this district for some years, is increasing. The dairy industry is especially becoming very popular throughout the district and has entered the year under very promising conditions.

The hay crop area will not exceed that of previous years, and the crop will be considerably later than it was last year.

Northern district.—The weather was somewhat milder than usual, and the spring opened two weeks later than last year, excepting in the Peace River districts. Cool and wet weather prevailed in the north and the crop area is two weeks later than last year.

The stock and dairying.—All live stock wintered well, no epidemics occurred anywhere and there has been less disease of other kinds than usual.

There is a gratifying response to the advice and counsel of the department to obtain more and better live stock, the mixed or intensive plan of farming is becoming more general and farmers are not only securing more and better live stock, but also better accommodation is being provided for stock of all kinds. In the dairy industry there is a large increase in production; greater and more general interest has been manifested and there is promise of still greater results for the coming year. The increased general interest in live stock has helped in the revival of the dairy industry which relates not only to quantity but to quality also.

Prize List of Wetaskiwin Fair

In case of a tie, preference to be given to first prize."

(Concluded next week)

CHAMBERLAIN'S PRICE 25¢ TABLETSTM Constipation, Sour Stomach, Gases on the Stomach Month's treatment in a package.

WATER FOR HEALTH

Water drinking is one of the simple laws of health that is neglected because of its simplicity. The human body, says Health Culture, is practically a sack of water. The body of the average man contains over half a barrel of water. This water in the form of twenty different fluids is constantly fluctuating back and forth among the tissues, doing the work of the body, and if there is any deficiency of water in the body this will suffer. The extractions of the body especially can be promptly carried off only when the supply of water is sufficient. Two quarts daily of pure water, preferably distilled, is little enough for the average person in average weather. In hot weather this may be increased somewhat, not only without danger, but with positive relief. The greatly accelerated action of the kidneys and skin is the best assurance of the safety of the individual.

EDMONTON

A THOROUGHbred
Quality is the hallmark of Chevrolet motor cars.
Neither completeness nor refinement is sacrificed to make the selling prices—low as they are.
There is no need of changes and additional parts—supplements, special wheels, hoods, radiators, etc.—to give a Chevrolet the appearance, comfort, and performance of a real automobile.
These qualities are bred in the Chevrolet—conceived in its design; carried out in its construction; and proven by its performance in the service of over sixty-five thousand satisfied owners.
Chevrolet owners experience a real pride of ownership.
